

Ev Hales

Ev Hales is an artist who works in a variety of mediums - each one adds to the other - each one offers something unique - each one challenges the artist - each one fulfills and stimulates at one and the same time.

Working across these mediums, an artist with formidable skills has evolved. Add this to her keen eye and insightful vision and something special comes out of the blend. Her artistic life is a journey each step leading to the next, never standing for too long in the one place, but sometimes circling around and revisiting a place again. Look away and you will miss the next phase of the journey - and who knows that may be the best one ever.

You will find works which celebrate our natural world and the never ending magic that changing light creates daily. As well as this you will see an artist who is keen to view the everyday aspects of her life, fascinated by the spaces we build for ourselves and how we navigate our way through them. Trivial aspects of daily life fascinate her and her aim is to leave a legacy of images that when put together give glimpses of things that are important to her as an individual, an artist and indicative of her time. As well creating works that excite

Ev is a valued tutor. Never selfish with her knowledge she believes that sharing what you know magnifies the learning for both tutor and student. The result of this is a schedule that Ev works hard to keep the teaching within manageable levels to allow time for her own artistic expression. Classes that she runs are often undertaken out doors where she believes the learning is not confined to one person and each responds to nature differently.

She teaches in Melbourne.

Ev has exhibited in Solo and Group Exhibitions extensively since 1989 and has won numerous awards.

She is in many Australian and Overseas collections.
